

DOKUMENTY MIĘDZYNARODOWEGO INSTYTUTU SPAWALNICTWA - 2009

Grupa Robocza 212 – Fizyka spawania

- 212-1133-09 Two arc attachment modes during electrode positive polarity in AC TIG welding of Al – S. Rose, J. Zaehr et al (Germany)
- 212-1134-09 Numerical investigations of the influence of metal vapour in GMA welding – M. Schnick, U. Füssel et al (Germany), A.B. Murphy (Australia)
- 212-1135-09 Numerical analysis of forming mechanism of hump bead in high speed GMAW – J. Chen, C.S. Wu (China)
- 212-1136-09 Arc characteristics and its application to seam tracking in pulse GMA welding with acute groove angles – R-H. Kim, K-D. Choi et al (Korea)
- 212-1137-09 Some issues in CFD-based simulations of laser-GMA hybrid welding – W-I. Cho, M-H. Cho et al (Korea)
- 212-1138-09 Globular and spray transfer in MIG welding – J.J. Lowke (Australia)
- 212-1139-09 Metal vapour in MIG arcs can cause (1) minima in central arc temperatures and (2) increased arc voltages – J.J. Lowke, A.B. Murphy (Australia), M. Tanaka (Japan)
- 212-1140-09 An integrated model to simulate laser cladding manufacturing process for engine repair applications – Y.P. Yang, S.S. Babu (USA)
- 212-1141-09 Models to describe plasma jet, arc trajectory and arc blow formation in arc welding – R.P. Reis, D. Souza, A. Scotti (Brazil)
- 212-1142-09 Temperature influence on black & white joints characteristics – D. Iordachescu et al (Spain), E. Scutelnicu (Romania)
- 212-1143-09 GTA weld penetration improvement by laser activation process with oxygen – M. Mizutani, S. Katayama (Japan)
- 212-1144-09 A numerical model of welding arc with constant voltage power source – Y. Tsujimura et al (Japan), A.B. Murphy, J.J. Lowke (Australia)
- 212-1145-09 Measurements and visualizations of 2D temperature of arc plasma from a monochromator with high-speed video camera – M. Tanaka, E. Yamamoto et al (Japan)
- 212-1146-09 Numerical model of conductive liquid transfer – K. Kadota, Y. Hirata (Japan)
- 212-1153-09 Heat input and pressure distribution of TIG arc on groove surface – Y. Ogino, Y. Hirata, K. Nomura (Japan)

- 212-1154-09 Approach to link between arc physics and weld distortion through heat transport phenomena – S. Okano, M. Mochizuki et al (Japan)
- 212-1155-09 Effects of metal vapor on shape and temperature of weld pool in TIG welding – K. Yamamoto et al (Japan), A.B. Murphy, J.J. Lowke (Australia)
- 212-1156-09 Material transfer in MIG welding with CO₂/argon shielding gases – G. Huismann (Germany)
