

DOKUMENTY MIĘDZYNARODOWEGO INSTYTUTU SPAWALNICTWA - 2009

Komisja V – Kontrola i zapewnienie jakości produkcji spawalniczej

- V-1431-09 Acoustic emission monitoring of high energy piping – A. Beveridge, B. Ham et al (Australia)
- V-1433-09 Quality enhancement in case of friction stir welding by online monitoring NDT – G. Dobmann, T. Jene et al (Germany)
- V-1434-09 Non destructive inspection of ITER PF jacket welds – L. Silva, P. Barros et al (Portugal)
- V-1435-09 Recent advances on the ultrasonic examination of an austenitic stainless steel weld – B. Chassignole, O. Dupond et al (France)
- V-1436-09 Micro-magnetic non-destructive evaluation of micro residual stresses of the IInd and IIIrd order – M. Rabung, I. Altpeter et al (Germany)
- V-1437-09 Probability of detection in NDT based on simulated data – F. Jenson, E. Iakovleva, P. Benoist (France)
- V-1441-09 Development of the technique for gas pipeline girth welded joints inspection based on the metal magnetic memory method – A.A. Dubov, S.M. Kolokolnikov (Russia)
